OFFICE OF THE CLERK OF THE COMMISSION
JUN 29 2023
BY: RECEIVED TIME: 2:05 p.m.

IN THE MATTER OF THE PETITION TO REVIEW THE QUALIFICATIONS OF SMARTMATIC PHILIPPINES, INC.[1] AS A PROSPECTIVE BIDDER IN VIEW OF ITS FAILURE IN THE 2022 ELECTIONS TO COMPLY WITH CERTAIN MINIMUM SYSTEM CAPABILITIES THAT RESULTED IN SERIOUS AND GRAVE IRREGULARITIES IN THE TRANSMISSION AND RECEIPT OF ELECTION RETURNS AND, IF WARRANTED, TO DISQUALIFY SMARTMATIC FROM PARTICIPATING IN THE BIDDING FOR THE 2025 AUTOMATED ELECTION SYSTEM,

EM CASE NO. 23-003

ELISEO MIJARES RIO, JR., AUGUSTO CADELIÑA LAGMAN, FRANKLIN FAYLOGA YSAAC, AND LEONARDO OLIVERA ODOÑO
Petitioners.

x----------,----------x

MOTION TO ADMIT SUPPLEMENTAL PETITION

Petitioners, by counsel, respectfully state that:

1. On 16 June 2023, petitioners filed the Petition dated 15 June 2023 in the instant case.

[1] May also be doing business under Smartmatic Corporation, Smartmatic International and Smartmatic SGO Group.

2. After the filing of the Petition dated 15 June 2023, petitioners discovered that there were further serious irregularities in the transmission of the Election Returns (ERs) from the vote counting machines (VCMs) to the Honorable Commission's Transparency Server (TS), particularly in the use of private IP addresses rather than public IP addresses, which need to be brought to the Honorable Commission's attention for a proper resolution of the instant case.

3. Thus, petitioners respectfully request that the attached Supplemental Petition be admitted and be made part of the records of the instant case so that all the issues may be threshed out.

4. This motion is not interposed for delay but is due solely to the reason set forth above.

PRAYER

WHEREFORE, it is most respectfully prayed that instant Supplemental Petition be admitted, made part of the records and considered in the resolution of the instant case.

Other just and equitable reliefs are prayed for.

San Juan City for the City of Manila, Metro Manila, 29 June 2023.

IN THE MATTER OF THE PETITION TO REVIEW THE QUALIFICATIONS OF SMARTMATIC PHILIPPINES, INC.[1] AS A PROSPECTIVE BIDDER IN VIEW OF ITS FAILURE IN THE 2022 ELECTIONS TO COMPLY WITH CERTAIN MINIMUM SYSTEM CAPABILITIES THAT RESULTED IN SERIOUS AND GRAVE IRREGULARITIES IN THE TRANSMISSION AND RECEIPT OF ELECTION RETURNS AND, IF WARRANTED, TO DISQUALIFY SMARTMATIC FROM PARTICIPATING IN THE BIDDING FOR THE 2025 AUTOMATED ELECTION SYSTEM,

EM CASE NO. 23-003

ELISEO MIJARES RIO, JR., AUGUSTO CADELIÑA LAGMAN, FRANKLIN FAYLOGA YSAAC, AND LEONARDO OLIVERA ODOÑO
Petitioners.
x----------x

SUPPLEMENTAL PETITION

Petitioners, by counsel, respectfully state that:

1. Further to the reasons already stated in the Petition dated 15 June 2023, petitioners would like to bring to the Honorable Commission's attention, additional serious and grave irregularities that occurred during transmission of election results of the 09 May 2022 elections which

[1] May also be doing business under Smartmatic Corporation, Smartmatic International and Smartmatic SGO Group

petitioners had just recently discovered after they had already filed their Petition dated 15 June 2023 which highlights Smartmatic's failure to comply with certain minimum system capabilities and could constitute sufficient grounds for its disqualification from participating in the bidding for the 2025 Automated Election System.

2. An Internet Protocol (IP) address is a unique numerical identifier for every device or network that connects to the internet. Typically assigned by an internet service provider (ISP), an IP address is an online device address used for communicating across the internet.[2]

3. There are two kinds of IP addresses. These are public IP addresses and private IP addresses. A public IP address refers to the unique identifier assigned to the internet connection of a device by the ISP. A private IP address on the other hand identifies different devices connected to the same local network. The private IP address helps the router identify different devices on the network and forward the information correctly.[3] The Internet Assigned Numbers Authority (IANA) has assigned several address ranges to be used by private networks. These ranges are: **Class A:** 10.0.0.0 to 10.255.255.255, **Class B:** 172.16.0.0 to 172.31.255.255, and **Class C:** 192.168.0.0 to 192.168.255.255.[4]

4. ALL VCMs nationwide were supposed to transmit their Election Returns (ERs) DIRECTLY to the Municipal, Central and Transparency Server, using the PUBLIC IP Addresses provided by Telcos/ISPs. No other gateways or routers must come in between the VCMs and the Servers. Attached as **Annex "A"** hereof is a graph representing the End-to-End Transmission Path shown to the Public, Political Parties, Poll Watchers and Watchdogs by the Honorable Commission before the 2022 NLE.

5. However, petitioners recently discovered that based on the audit log of the Honorable Commission's **List of VCMs Received Transmission Logs May 9, 2022 NLE** posted in its website, the IP addresses used in

[2] https://www.techtarget.com/whatis/definition/IP-address-Internet-Protocol-Address#:~:text=What%20is%20an%20IP%20address%20(Internet%20Protocol%20address)%3F,for%20communicating%20across%20the%20internet.
[3] https://vpnoverview.com/privacy/anonymous-browsing/public-vs-private-ip/
[4] https://www.ibm.com/search?lang=en&cc=us&q=class%20a%2C%20b%20and%20c%20ip%20address

transmitting the ERs were private IP addresses, examples of which are shown by the table attached as **Annex "B"** hereof.

6. In fact, **all of the IP Addresses found in the Raw Data of the Reception Logs uploaded in the Honorable Commission's website are private IP addresses** rather than public IP addresses of VCMs coming from precincts nationwide and transmitted by Telcos/Internet Service Providers (ISPs). Since private IP Addresses CANNOT be routed on the internet, the only logical and technical explanation for this occurrence is that there was an illegal Local Area Network (LAN) that had cloned the IP addresses of thousands of VCMs, as illustrated by the figure attached as **Annex "C"** hereof.

7. Thus, instead of the VCM transmissions passing through the networks of Telcos/ISPs using PUBLIC IP Addresses, workstations in this illegal LAN had apparently cloned those VCM transmissions and sent the ERs to the Transparency Server (TS) using the private IP addresses. The taxpayers paid the Telcos/ISPs millions of pesos to transmit the ERs from the different precincts of the country to the TS, but not one PUBLIC IP Address can be found in the **List of VCMs Received Transmission Logs May 9, 2022 NLE** posted in the Honorable Commission's website. Attached as **Annex "D"** hereof are several samples of received transmissions taken from the Honorable Commission's website presumably from VCMs in the first HOUR after voting closed, but all coming from private IP addresses in an illegal LAN mostly coming from a single IP address 192.168.0.2.

8. Just an hour after voting closed, the Received ERs shown to the public by the TS showed an unbelievable 20+ million votes, a staggering 37.5% of all votes already counted by 8:02pm of 09 May 2022. This despite the various administrative matters required to be done BEFORE ANY VCM can transmit its ER. Yet on the 2nd HOUR, when more VCMs were ready to transmit, the votes counted by the TS unexplainably dropped to just 13+ million votes.

9. Besides the incredible peak count of 20+ million votes by 8:02pm of May 9, 2022, there are also statistically improbable constant vote ratios across the presidential candidates and the highest ever number of votes

gotten by a winning presidential candidate in the history of Philippine elections, as shown by the table attached as **Annex "E"** hereof.

10. While the Central Server may have received the ERs sent to it by the Telcos/ISPs, the Transmission Logs corroborated by the Telcos' CDRs have NOT been released to the public. On 18 October 2022, the Honorable Commission's Chairman George Garcia had committed to compel the Telcos to submit their Transmission Logs so that these could be shown to the public. Until now, that commitment from the Chairman still hangs, showing instead Reception Logs coming from private IP addresses which source can only be from a PRIVATE Network/LAN and NOT from the Networks of the Telcos.

11. Coupled with the irregularities earlier pointed out in the Petition dated 15 June 2023, the sending of the election results from the VCMs to the TS through private IP addresses creates serious doubts regarding the transparency and credibility of the results of the 2022 NLE and, if left unexplained, constitutes sufficient grounds for the disqualification of Smartmatic from participating in the bidding for the 2025 Automated Election System.

PRAYER

WHEREFORE, it is most respectfully prayed that:

1. The instant Petition and Supplemental Petition be given due course;

2. The qualifications of Smartmatic be reviewed by the BAC in view of the serious and material irregularities in the transmission and reception of election results in the system which Smartmatic developed and provided for the 09 May 2022 Elections;

3. If the serious and grave irregularities pointed out in the Petition and Supplemental Petition are not satisfactorily explained by Smartmatic, that the Honorable Commission as the Head of the Procuring Entity instruct/order the BAC to disqualify or declare

ineligible Smartmatic from participating in the procurement for the 2025 Automated Election System; and

4. In the interest of the highest standard of integrity, honesty, accountability, impartiality, and transparency, post on the Honorable Commission's website the List of VCM Transmissions for the May 9, 2022 NLE corroborated by the TELCO's Call Detail Record (CDR).

Other just and equitable reliefs are prayed for.

San Juan City for the City of Manila, Metro Manila, 29 June 2023.

VERIFICATION AND CERTIFICATION OF NON-FORUM SHOPPING

We, **ELISEO MIJARES RIO, JR., AUGUSTO CADELIÑA LAGMAN, FRANKLIN FAYLOGA YSAAC** and **LEONARDO OLIVERA ODOÑO,** all of legal age, Filipino, after having been duly sworn in accordance with law, hereby depose and state that:

1. We are the petitioners in the instant case and are filing the same in our capacities as citizen, taxpayer, and registered voter.

2. We have caused the preparation of the foregoing Supplemental Petition and have read its contents. The allegations therein are true and correct based on our personal knowledge or on authentic records. The pleading is not filed to harass, cause unnecessary delay or needlessly increase the cost of litigation and the factual allegations therein have evidentiary support.

3. Other than G.R. No. 263838 pending with the Supreme Court which involves a related subject matter but different issues and reliefs sought, we have not commenced any action or filed any claim involving the same issues in any court, tribunal or quasi-judicial agency and, to the best of our knowledge, no such other action or claim is pending therein.

4. If we should thereafter learn that the same or similar action or claim has been filed or is pending before any other court, tribunal or quasi-judicial agency, we shall report such fact to the Honorable Court within five (5) days from such knowledge.

ELISEO MIJARES RIO, JR.

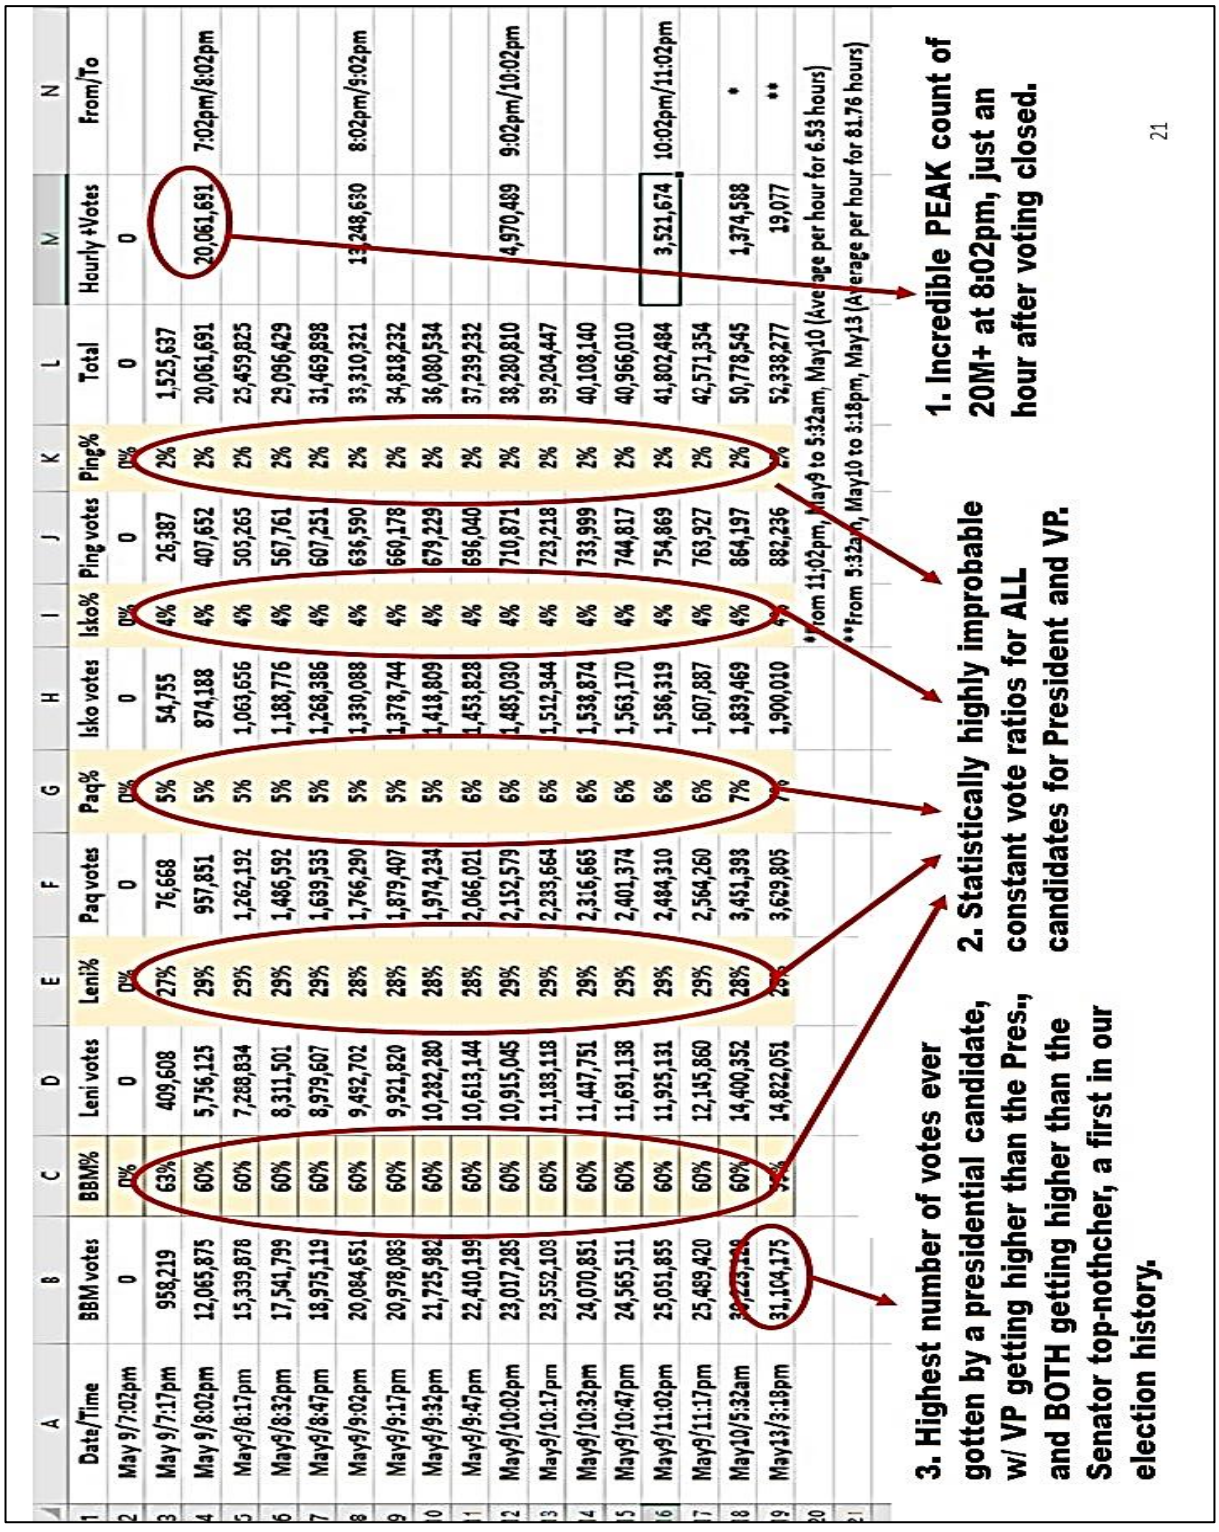
Annex "E"



1. Incredible PEAK count of 20M+ at 8:02pm, just an hour after voting closed.
2. Statistically highly improbable constant vote ratios for ALL candidates for President and VP.
3. Highest number of votes ever gotten by a presidential candidate, w/ VP getting higher than the Pres., and BOTH getting higher than the Senator top-nothcher, a first in our election history.
*from 11:02pm, May9 to 5:32am, May10 (Average per hour for 6.53 hours)
**From 5:32am, May10 to 3:18pm, May13 (Average per hour for 81.76 hours)
